J. C. BOLLMEYER, Secretary.
M. DONNELLY, Chairman.

On Tuesday next the Congressional convention is to be held in Defiance. The Henry county delegation is composed of representative Democrats and men in whom the organization have explicit confidence. Henry county is by right entitled to the nominee of the convention, and we hope our delegation may work as one man for that end. Hon. D. D. Donovan is a candidate for the honor, let the delegates from this county give him a united support so long as there is a possibility of his success. We believe Mr. Donovan, as any other good Democrat, can lay Brigham out, just as he was shelved a few years ago.

By the new census, Ohio will have 25 Electoral votes, in 1892, against 23 in the election of '88.

The Ohio State Fair will open at Columbus on Monday, September 15th, and close Sept. 19th.

It has been estimated that the farms of the United States are mortgaged to the amount of \$3,500,000,000.

Has any body heard of any Farmers' Alliance or Grange endorsing the McKinley Tariff Bill? Don't all speak at once.

The Tiffin woolen mills are in the hands of a receiver. This illustrates that the tariff does not keep mills running to give employment to labor.

The name of Brigham does not appear in the Republican ticket published in the Wauseon Tribune, which confirms the report that the Tribune is sour on Brigham.

The senatorial committee has set the time for holding the convention to nominate a candidate for State Board of Equalization for October 23d, and the place Toledo.

The Auditor of State reports the number of saloons returned by the assessors of the different counties to be 9,810 for the whole State. An examination of the list shows that 7,040 are in Republican counties and 2,770 in Democratic counties.

Hon. W. W. Armstrong, one of the best and brightest Democrats in the northern part of the State, is prominently mentioned as a Democratic candidate for Congress in the 21st district. We hope Mr. A. may be selected, as he will make an aggressive campaign and faithfully represent his constituents if elected.

Henry Holterman has sold the Wood county Democrat to H. S. Chaffin, of Toledo, who assumes control of the paper this week. We hope Mr. H. will conclude to move back to Napoleon, but wish him success wherever he goes. We also wish Mr. Chaffin success in his new enterprise, and hope he will be the means of eventually redeeming Wood county from Republican rule.

A story with a moral: The Tiffin woolen mills has closed its doors. The proprietor, S. A. Rockwell, a staunch Republican, says his failure is directly due to the Republican tariff, which compelled him to pay an exorbitant price for a grade of wool that was necessary in his line of manufacture, and that is not and cannot be raised in this country.

There arrived in this country, the other day, a handsome statue of Lafayette to be erected in Lafayette square, Washington, D. C., the gift of the French government, its total cost of about \$200,000 being borne by the donor. This in addition to the magnificent gift of "Liberty" for New York harbor. The French people are truly our friends.

The Democratic caucus last Saturday was largely attended. Herman Benien was made chairman and L. L. Orwig secretary. W. F. Baum and Chas. Jackson selected as tellers, but their services were not needed. The committee to select congressional delegates consisted of M. Knapp, Chas. Evers and A. H. Tyler. And the committee to select county delegates was composed of the following: J. P. Ragan, O. Parker, Henry Bostleman, Chas. Kolby and J. H. Rohrs.

Ex-Gov. Noyes dropped dead in the court house at Cincinnati on Friday last. Apoplexy was the cause of death. Noyes was one of the prominent Republicans of the State, having served in Congress two terms from Hamilton county; was elected governor in 1871, and defeated for re-election by Wm. Allen in 1873; was minister to France during President Hayes' administration; was elected to superior court in Hamilton county in 1889.

Never before in the history of the county has the Democratic caucus been so largely attended as this fall. This is a good omen, and foretells a large Democratic vote in the election in November. Democrats are wide awake and thoroughly understand the vital issues in the campaign, and the balance of the State may rest assured that Henry county will do its share toward carrying the State for Democracy this year. We will give a large Democratic vote with an increased majority.

The exclusively home market theory and Blaine's reciprocity proposition to extend our markets to the South American States somehow don't seem to jibe. They are as a side apart as the north and south poles. M. nine Republicans are coming around to Blaine's idea that he took from the Democrats, which is neither more nor less than an acknowledgment that the Republican party for a quarter of a century has been wrong and the Democratic party right.—Plain Dealer.

Hon. D. D. Donovan, of Henry county, and member of the House, was here Friday. Mr. Donovan is a candidate for Congress from the Sixth district and is in nowise hypnotized at the thought that no member of the present House has yet succeeded in ringing a congressional nomination. He said to the World that the selection of Hon. Thaddeus E. Crowley broke the ice and that now other members would have smooth sailing.—Columbus World. It now looks as though Mr. Donovan would be chosen. If he is he will be elected, sure.

This is from the Atlanta Constitution: Here in Atlanta we have negro lawyers, physicians and dentists; negro merchants, tailors, undertakers, shoemakers, tanners, painters, carriage-makers, blacksmiths, and wheel-wrights; negro contractors, who employ white as well as colored workmen; negro carpenters, cabinet makers, brickmasons, plasterers, and plumbers; negro workers in shops, in every trade and business for which their ambition and ability fit them; and opportunities open to them in every direction that their capabilities may suggest.

Wherever farmers come together in convention they pass resolutions denouncing trusts and the protective system and then some of them go home and accept nominations from the party that has been the means of bringing about the systems, that are now robbing them. Consistency, etc.—Dayton Workman.

In 1867, when there was no tariff on wool, Ohio had 7,000,000 sheep. Now, after twenty-three years of "protection" there are just 3,333,208, a falling off of over four millions. Comment is unnecessary.

Actions speak louder than words. The Republican State convention resolved as follows: "We do further repeat our declaration in favor of a fair and just service pension."

Now let the Republican National party resolve the same thing, and the party, as of old, go to the capital city with a majority in our legislative halls, and when the service bill comes up for passage, knock it out. Then consistency with former action at the next convention, resolve again the same old resolve. How long will the old soldier allow himself to be fed on the "hunks" of resolutions, by the party which has the power to give.

As violent disturbances on the sun's photosphere are recorded on the magnetometers at Kew and other large observatories, he believes he can wind thousands of electric wires around the magnetic iron column and "form an inductive circuit, into which powerful electric currents would be thrown by any disturbance of the earth's magnetism." The National Democrat, published at Washington, is correct in its statement that there should not be in any section of the United States, the slightest antagonism between the Democratic party and the farmer, and if such antagonism anywhere exists it cannot be the fault of the Democratic party. It was more directly in the interest of the farmers than of any other portion of our people that the Democratic party, under the leadership of Mr. Cleveland, made a great contest for tariff reform in 1888. It is for the farmers, even more than for anybody else, that this contest has been carried on thus far, and it is to be continued hereafter. Under these circumstances it cannot seem otherwise than unnatural that farmers in any part of the country should lend assistance to any movement that is hostile to the Democratic party.

The potato crop is a failure this year in almost all parts of the country. The McKinley bill raises the tariff on potatoes from 15 cents a bushel to 25 cents. How we consumers, along with the farmers who have to buy the potatoes, will rejoice as we pay 25 cents extra on every bushel imported from Canada!
